

Lanesboro Board of Health
Minutes for meeting of July 6, 2009.

In attendance: May Hickey, Nancy Boudreau, Ed Fahey and Francisca Heming.

Issues raised:

1.- Read and approved minutes from the meeting of 06/15/09.

2.- **14 Katherina Street** (Torra's property)- The Board of Health met with the Select Board in regard to the flooding issues in this property– flooding events as a result of the increase of rain - that could potentially affects the mound septic system.

The LBH does consider this matter as an “imminent health hazard” waiting to happen if no action is taken. The system is not designed to perform under water and there are existing signs of a potential failure of the system, if not aided in the side of caution. A letter was sent to the Select Board on 7/6/09 stating the LBH position.

3.- **39 Narragansett** – Complaint from neighbors. The property has been investigated and was considered inhabitable. A letter was sent with no response as of today. A demolition order will be sent by the LBH with a 90 days window for a response/clean up or repair plans.

4.- **Assessment for Board of Health needs** : Lanesboro Board of Health met with Valeria Carlson in order to evaluate the needs of the Board and types of Training is needed for a better work performance. This is a study being done with the Boards across the county with goal of achieving consistency along the different Health of Boards in the State. It is a lengthy process, in which a lot of questions were asked and different ideas are brainstormed.
